Resolved, I. That in the opinion of this Convention II is the earnest desire of the people of Kentucky that the nution of all the States should be restored and the Confederacy reconstructed, and to that end it is our deliberate conviction that there should be amendments to the Federal Constitution, clear and complete, covering and providing for all the disturbing subjects growing out of African slavery. 2. That the preservation of peace between

the Southern Confederacy, is indispensable to the restoration of the Union; that we implore both Governments to abstrain from collision or war is any form; that any attempt at coercion by the Federal Administration against the Southern Confederacy, by collecting the revenine, recapturing the foirs, or otherwise looking to the enforcement of Federal lows, or subjugation, would frestrate all hopes of restoring our Union; and we emphatically announce that if such operion is attempted by the Federal Government, we will make the cause and destiny of the Southern Confederacy one own.

3. That we recommend to the Federal Government to withdraw its troops from the forts now occupied within the Territories of the States forming the Southern Confederacy.

4. That the geographical position of Kentacky makes desirable the co-operation of all the Border Slave States, and as it has been suggestion by the Conventions of Virginia and Missouri, now in session, that there be held a Conference of said Slave States, we recommend to the present Legislature to invite such Convention for the purpose of devising, if possible, some plan of reconstructing our Union, and that decigates to such Convention for the purpose of devising, if possible, some plan of reconstructing our Union, and that decigates to such Convention be elected by the legally qualified voters of each Congressional District in the State.

5. That it is our deliberate ophnion that guarantees for the protection and safety of slave property, and the equal rights of the Slave States and their people, less char and defined than the Crittenden propositions with the Powell amendment thereto, ought not and will not be accepted by the people of Kentucky.

6. That the clause submitted to the Peace Congress in the original Guthrio proposition denying the right of free pegroes to vote for any and all Federal officers, we regard as essential to our peace and as a settlement of a disturbing and most dangerous question, and that the right of free pegroes to vote for any and all Fede

ions or plans for the formation of a Middle Confederacy.

9. That in consideration of the deep injuries to the commercial and other interests of the whole country, consequent upon our political troubles, the plan for the restoration of the Union should receive the prompt and speedy action of the States.

10. That in the event of our cherished loopes for the restoration of the entire Union are basted, that our affinities, duties, and interests unitens with our Southern brethern on principles of justice, equality, and honor.

11. That if all efforts for set in ent of the difficulties in which we are involved shall fai, we recommend to the Legislature to provide for the election of celegates to a State Convenion, to be held as soon thereafter as practicable, to decice upon what position Kentucky shall thereafter occupy, and that the final action of said Convention shall be enhmitted, for approval or disapproval, to the voters of Kentucky.

In response, Mr. Stephens excused himself, from his state of weariness and fatigue, from making any very extended remarks, but said he desired to notice an allusion of the Mayor to the labors of the Congress at Moutgomery. With marked emphasis Mr. Stephens said that in all the public bodies in which he had ever served the country, and in his experience they had not been few, he had never met as many mon combining the same exalted talent with as much of devoted, unseltish patriotism.—

Their whole sim seemed to be to see the right and to pursue it. This was his opinion, but very soon we would have the opportunity of seeing what had been done and passing upon it ourselves. This delusion could not be traced in any of the component parts of the Southern Constitution. In that instrument we solemnly discarded the pestilent heresy of fancy politicians, that all men, of all races, were equal, and we had ninde African inequality, and subordination, and the equality of white hen, the chief corner stone of the Southern Republic, With an honest Administration of a Government so founded, Mr. Stephens said the world was yet to see

Even now our galaxy unmbered "seven stars," and like that well known cluster we would soon have the admiring gaze of the world to follow us. What the labors and science of General Beauregard had done in convincing Major Anderson that his position was not impregnable he would not undertake to say. But if this prediction turn out as It may, of one thing we might rest assured, that the forts would be given up, or they would he taken awny. The labor, he said, was not so much to get money into the public chest as to protect it from misappropriation after it was raised. By the new Constitution, not a dollar could be drawn from the public Treasnry nuless by a two-thirds vote of Congress. An exception to this rule was only made when the President should report to Congress that pressing public necessity and exigency called for it. The Democrat of this morning says

The Tribune of yesterday says:

Zatest by Telegraph. LAST NIGHT'S DISPATCHES. OFFICE LOUISVILLE COURIER, The movements in financial circles to-the indicated nothing new. There was EXTRA SESSION OF THE SENATE.

Thursday Proceedings.

Wasutsoton, March 21.—Mr. DOUG-LAS' resolution was taken up.

Mr. BAYARD resumed his remarks from yesterday, in favor of recognizing the independence of the Confederate States. He discussed the causes leading to the withdrawal of seven States, among which was the formation and success of a sectional party hostile to slavery, and whose ultimate purpose was the extinction of slavery party hostice to slavery, and whose immate purpose was the extinction of slavery by the indirect action of the Government. He argued the right of property in slaves, and the duty of protecting such right.—Without concluding, the Senate went into Executive Sersion, and subsequently adjourned.

From Washington. Washisoton, March 2l.—It is said that the failure to evacuate Fort Sumter ves-terday is owing to technical reasons. It is now said that it will take place jumedi-

The Senate will probably not acjourn till the middle of next week. Senators Mason, Hunter, and Lane have left for home.

Mr. Sandorson, of Philadelphis, has been

Commercial Advertiser, from this place, says it is rimored that the secession movement, under the influence of the Kulghts of the Golden Circle, is spreading in California, but it is expected that the Federal troops and officers there are true to the Union. It is reported that the Cabine: has the subject under consideration.

Washington Gossip. New YORK, March 21.—A special Washington dispatch to the Commercial Advertiser says the National Intelligencer of this ther says the National Intelligencer of this morning has an editorial of six and a half columns, entitled "The Past, the Present, and the Future," which is emising a sensation in political circles here. It reviews the action of the seceding States, severally and jointly, and takes positive ground against recercion or the employment of force in any way to restore the Federal authority. thority.
The intelligeneer's opinion is that the

The Intelligencer's opinion is that the existing difficulty can only be settled by the interposition of a general Convention of the States, and that the relation of the seceded States to the Federal Government can be changed only by their voluntary return to the Union. Failing in that, the editors see no way open but to acknowl edge their independence out of the Union. It is said that many Republican leaders have expressed similar opinions, but it is equally true that they are determinedly cornered by others.

From Kansas. Atchison, March 21.—The annual Conference of the Methodist Episcopal Church, for this State, commenced its session this morning, with Bishop Morris presiding. Members from all parts of the State are in

ttendance.

Joseph Hapromboise, head Chief of the Pottowattomies, with a number of the leading men of the tribe, came in yesterday with seventeen teams for supplies from the Relief Society, and were supplied with corn, flour, beans, meat, and clothing, and with wheat for seed.

They claim the \$600,000 due them from the Government, for which they have re-

the Government, for which they have re-cently instituted a suit. The tribe num-hers 2,700, and the head men estimate over hers 2,700, and the head men estimate over 1,000 needing assistance.

Upwards of 30,000 bushels of seed wheat have heen received and distributed from this point, together with large amounts of garden and other seed. Nearly three hundred teams were loaded with supplies of different descriptions to-day. The weather is cold and windy and the season backward.

There is a pretty fair inquiry for coffee, and the market continues very firm in tone, but there is a very limited supply of the better grades in market. We have no transactions to report to-day. The stock of Rio coffee in first hands does not exceed 5,000 bags.

We continue our quotations as follows, viz: 11%@12f for common Rio; 12k @12f for fair; 12k @12f for good; 13k @13g for prine; 14@16f for Laguayra, and 17@18f for Java. Arrival of the Pony Express. FORT KEARNEY, March 21.-The Pony Express, with California dates to the 9th Express, with California dates to the 9th inst, passed here at twenty minutes past six o'clock this afternoon.

The Legislature in general session had one hallot for United States Senator on the 8th inst., with the following result: T. S. Phelps, 23; McDongal, 27; Weller, 28; Nugent, 3; Denver, 17; Whitesides, 5; Hoge, 2. The Republicans are expected to cast their united strength for any acceptable Union man, when such a candidate can be brought forward. A series of strong Union resolutions passed the Assembly on the 7th. The noney market shows very little if any change aince our last report. Exchange is dull, with very little demand. The nominal scilling price is 6%, with epncessions freely to enstomers of XGX on round lots. Buying 5% 60 W cent. The banks are selling down as fast as possible, and making small purchases in anlicipation of a further decline. Let it come, the sooner the better. Dhion resolutions partially the first the fit.

A fire at Quincy, Phincas county, destroyed property valued at \$30,000.

The Democrat of this morning says:

There is nothing new in money circles except that exchange is dult; sales at 8,7 2 cent premium, with a prospect of a further decline. There is, in fact, nothing to keep exchange up. Produce is moving East and south rapidly, and the market is abundantly supplied. These causes alone would give it a downward tendency. Currency is still accumulating, with an immense amount now on band. Illinois, discredited, stands the same as yesterday, with no disposition to enlarge the trade in fi. NEW ORLEANS, March 21.—After a lively chate, the Convention adopted the perma-ent Constitution of the Confederate States The Powhatian arrived off Pensacola on the 16th from Vera Cruz, making the fifth war vessel stationed there.
